

IF the file « CreateBDDLorann » don't work. Here is the command SQL to create the BDD.

First:

Create a BDD "lorann".

Second:

Execute this code in the BDD loran:

```
CREATE TABLE level( ID int not null auto_increment, Type_de_structure  
varchar(100) not null, X int(11) NOT NULL, Y int(11) NOT NULL,  
Numero_du_niveau int(5) NOT NULL, primary key (ID))
```
